WIN for your school.

Six story winners will
be chosen by random
drawing. Win and GAE
will help your school
with \$150 in much-
needed supplies from
STAPLES.

Tell Legislators how funding problems challenge your school.

After more than eight years, the cuts just keep coming and coming to Georgia's education budget.

Enough is enough.

It's time to tell the legislature what really happens in Georgia classrooms when money is cut. Let them **see the real faces** and **hear the real voices** of those affected by budget cuts.

1). Pick a question to answer or come up with your own starting point.

- * Due to funding cuts, have you had to make changes in the way you work with students?
- * What do you wish legislators knew about your students, your school, or you before cuts are made?
- * Give specific examples of how funding cuts affect your school, classroom, or students.
- * What ideas do you have for cutting costs and sharing resources so that schools can avoid furloughing employees?

Please limit videos to 3 minutes or less in length.

2). We'll compile your stories/videos and get them into the hands of Georgia's decision makers. Your voices will be heard.
